Swinburne Sydney international scholarships

Excited about moving to Australia to study? We're just as thrilled to welcome you!

We value the vibrant contribution that international students make to our campus, culture, and community. That's why we have scholarships just for international students. If you're awarded one, you can focus less on finances, and more on learning and experiencing all that Swinburne and life in Sydney have to offer.

When you apply for a Swinburne Sydney course, we automatically consider you for an international scholarship – no separate application is required! Just apply for your Swinburne course of choice and when we review your course application, we will also assess you for an international scholarship. We'll advise you of your course application, and scholarship success by email.
